

We totally support XM Radio and satellite radio in general. We as a family have 5 connections and have found it to be very refreshing compared to AM or FM broadcast. We have chosen to pay a fee for the superior services of XM radio and we feel it a personal violation for the NAB to attempt to curtail my ability to choose what I want to hear. What I choose to listen to on XM is in no way immoral or against any law. I feel so strongly about XM that I have devoted (at my expense) a reasonable amount of Internet space on my website, csgnetwork.com to XM and satellite radio in general. We as a family feel it is beneficial to our lives.

Sincerely;

Jesse Strauss
